## Compliance & Standard Details

|                                                                         |     |
|-------------------------------------------------------------------------|-----|
| Complies with (EC) 1935/2004 on food contact materials <sup>1</sup>     | Yes |
| Complies with EU Regulation 2023/2006/EC of Good Manufacturing Practice | Yes |
| Complies with FDA Regulation CFR 21 <sup>1</sup>                        | Yes |
| Complies with UK 2019 No. 704 on food contact materials                 | Yes |
| Meets the REACH Regulation (EC) No. 1907/2006                           | Yes |
| Complies with California Proposition 65                                 | Yes |
| Complies with Halal and Kosher                                          | Yes |
| PFAS intentionally added                                                | No  |

## Usage Limits

|                                                   |          |
|---------------------------------------------------|----------|
| Recommended sterilisation temperature (Autoclave) | 249.8 °F |
| Max. cleaning temperature (Dishwasher)            | 199.4 °F |
| Max usage temperature (food contact)              | 176 °F   |
| Max usage temperature (non food contact)          | 212 °F   |
| Min. usage temperature                            | -4 °F    |
| Max. drying temperature                           | 212 °F   |
| Min. pH-value in usage concentration              | 2 pH     |
| Max. pH-value in Usage Concentration              | 10.5 pH  |

New equipment should be cleaned, disinfected, sterilized, and any labels removed, as appropriate to its intended use, e.g. high risk vs. low risk food production areas, general hospital areas vs. intensive care units, before use.  
3. Do not store the product below 32 °Fahrenheit.
