

Pipe Brush w/handle, one piece

3.1", Medium, Red

Item Number: 5382804

Our latest one-piece pipe brush has more features to love thanks to industry feedback. More bristles mean that this brush holds even more cleaning solution, making wet cleaning a breeze. The stiff bristles allow the brush to handle tougher cleaning jobs, whether it's for metal, nylon, PVC, or stainless steel pipes. Workers will be able to comfortably add manual pressure, due to its ergonomic design. The handle is long enough that force can be easily applied, but not so long that it becomes cumbersome. One-piece construction and high-quality materials make Vikan's latest pipe cleaning brush durable enough for repetitive tough cleaning. The Pipe Brush, as part of the Hygiene Line, possesses the familiar design advantages that Vikan is known for. The lack of crevices, cracks, and mold lines eliminates the places bacteria can hide and multiply in. The brush itself is easy to clean and can be placed in an industrial dishwasher or an autoclave. And, with 8 colors to choose from, our industrial pipe cleaning brush can be a part of any color-coding plan.
