

HyGo Mobile Cleaning Station Highly Commended

at SOFHT Best New Product Award 2025

This recognition from the Society of Food Hygiene and Technology (SOFHT) reflects the strength of HyGo's design, its innovative approach to mobile cleaning, and the value it brings to hygiene teams across the food and beverage industry. Being acknowledged by SOFHT's judging panel underscores the real-world impact HyGo is already making in improving efficiency, supporting hygiene zoning, and helping customers work smarter and more safely.

This achievement is the result of dedicated teamwork across Vikan — from product development and technical expertise to sales, marketing, and customer support. It is a testament to the collaboration, knowledge, and commitment that go into creating solutions that meet the industry's highest standards.

We are proud to see HyGo recognised at such a respected industry event, and we look forward to continuing to promote the product with the endorsement:
