

ISO 9001 Quality Policy

Vikan is the world's leading supplier of hygienic cleaning tools for the food industry and other hygiene-critical environments.

Supported by the industry's most comprehensive knowledge base on hygiene, sanitation, and global legislation, we combine practical experience with scientific expertise to deliver the world's most effective professional cleaning tools and market-leading consultancy services.

Our objectives are to:

- Deliver products of the highest and most consistent quality
- Deliver products when our customers need them
- Promote a culture of quality and continual improvement at all levels of the organization
- Ensure a stable supply chain with a high level of supply security

We are committed to:

- Improving our internal processes to increase efficiency and reduce errors
- Complying with applicable requirements from authorities and other interested parties
- Continually improving our Quality Management System
